

for Project Managers, Purchasing Managers or Financial Controllers looking to better control their projects and/or their purchases

**Theme: envisage this... more automation, better information on projects, people, profitability and purchasing**

14.00

Tea/Coffee/Registration

14.15 – 14.20

Introduction

Our MD Peter Bergin will give us an overview of our Sage 200 solution, designed for organisations looking for better control over project costs, time & expenses and profitability

14.25 – 14.40

Keeping tight control of projects, people, costs and profits with Sage 200 Project Accounting

Peter will share with us how Sage 200 Project Accounting benefits Financial Controllers and Project Managers and how it helps companies like yours become more profitable

14.45 – 15.00

Tracking and approving employee's time and expenses and controlling purchasing costs are simple with WAP for Sage 200

Sarah is the expert when it comes to keeping control on costs. She will demonstrate with her usual passion and enthusiasm, just how simple it is to get employee time and expenses recorded and allocated back to a nominal code or a project in Sage 200. Similarly, Sarah will highlight how using a workflow /approval solution can help control purchases.

15.00 – 15.10

Customer Speaking

Niamh Halligan from Crowleys DFK will talk about their experiences using the Sage 200/WAP Solution

15.15 - 15.20

Critical information at your fingertips with PanIntelligence

Jade will talk about how she helps companies get more and better information using this fantastic, easy-to-use advanced business intelligence tool for Sage 200.

15.20 – 15.30

Q&A

## Helping your organisation Kick Ass

#kickasswednesday

---

### Don't go!

Stay and see our solutions in our **mini exhibition area (in the East Wing)** – get demonstrations, ask any questions you may have.

Or why not join **LINE OUT THREE** which **starts at 15.45**. This is ideal for companies who have field service workers in sectors such as Heating, Plumbing, Fire and Safety, Air Conditioning, Consulting, Energy, Engineering, Fabrication, Lifts, Promotions....plus lots more.

It's all about automating your processes, so you can be more efficient, better organised, provide better customer service and earn more profits. (for registration visit [www.envisagecloud.com/envisagethis3](http://www.envisagecloud.com/envisagethis3))

Ah go on, you're here now! At 17.15, take the opportunity to see the stadium properly from the press conference room, dressing rooms (empty!), player's tunnel, dugouts and more. Pretty impressive! There will be a surprise guest joining you on the tour to share some "inside information"!
