

for service organisations with a field service team

Theme: envisage this.....real-time interaction between the field and the office

15.45	Tea/Coffee/Registration	
16.00 – 16.20	Fieldmotion in motion	<p>If you're wondering how to get away from paper based job sheets, then help is at hand. Eddie will be talking to us about how the Fieldmotion solution has benefited lots of other field service based organisations across a range of industries.</p>
16.25 – 16.35	Field Service and Sage 200	<p>What if the timesheet information recorded on the mobile device could magically find its way back to your project records in your back office system? Now it can. Peter and Eddie will elaborate more on how Fieldmotion and Sage 200 Project Accounting work together.</p>
16.40 – 16.50	Critical information at your fingertips with PanIntelligence	<p>Jade will talk about how she helps companies get more and better information using this easy-to-use advanced business intelligence tool for Sage 200.</p>
16.55 – 17.10	Q&A Session	

Helping your organisation kick ass.....#kickasswednesday

17.15 – 17.45

Take a quick tour of the stadium

Ah go on, you're here now. Why not take the opportunity to see the stadium properly from the press conference room, dressing rooms (empty!), player's tunnel, dugouts and more. Pretty impressive! There will be a surprise guest joining you on the tour to share some "inside information"!

Why not come early!

Come earlier and visit our **mini exhibition area (in the East Wing)** – get demonstrations, ask any questions you may have.

Or why not join **LINE OUT TWO** which **starts at 14.00**. This is ideal for organisation looking to keep tighter control of their projects and purchasing.

It's all about automating your processes so you can keep tighter control of your purchasing (through Purchase Requisitions and Invoice Approvals) and your Projects (with Project Accounting, Timesheets and Expenses)

for registration visit www.envisagecloud.com/envisagethis2
