

Office 365

# GSX 365 Enterprise Management

Leverage GSX Solution's proven expertise to keep your business communications flowing.

GSX 365 Enterprise Management makes Office 365 compliant with the administration needs of large scale organizations.

Thanks to the most advanced Office 365 management solution, IT administrators can easily manage large numbers of Office 365 users.

Optimize your licenses management and usage to maximize your return on investment.

## GSX Solutions makes Office 365 mass management simple!

With a few mouse clicks, IT administrators can handle hundreds to thousands of users at a time—whether onboarding/offboarding users, resetting passwords, assigning/unassigning Office 365 licenses, or moving users in and out of distribution and security groups. IT administrators are no longer required to write complex PowerShell scripts to automate administratively intensive management tasks.

All Office 365 administrative functions are highly automated, dramatically cutting down on the level of effort and amount of resources required to manage any organization's users.

### Licenses & Usage

One stop shop solution to drill down on Exchange Online, usage and licenses for a larger return on investment.

### Mass Management

Easily manage large volumes of Office 365 users with clicks of a button.

### Cost Saving

Globally reduce operating costs by saving thousands of hours of actions manually done while removing high risk of errors.
