

DID YOU KNOW?

Westminster Village has been serving the greater Dover community for nearly 30 years.

Soon, transitional care services will be available for older adults after the hospital but before going home – to help us provide the very best care.

“The availability of this additional care will make a significant contribution to the array of healthcare services available here in Dover. To receive the services needed, without leaving our community, will be a wonderful resource for greater Dover’s seniors.”

– *Daniel W. Rowles, CFP[®], CRPC[®]*
