

CAST-FIT®

UNDERSTATED ELEGANCE IN MANUFACTURED STONE VENEER

Cast-Fit[®] Manufactured Stone Veneers: Affordable Elegance + Durable Design

With Cultured Stone[°] Cast-Fit[°] stone veneer you don't have to compromise architectural design for the bottom line. Cast-Fit[°] provides you a solution for designing contemporary commercial and residential buildings with the classic look of natural stone without difficult installation. Produced with new" manufacturing techniques, Cast-Fit[°] stone veneers are designed to be dimensionally stable and color consistent making it the right choice for your projects.

Product Selection:

French Gray[™] Cast-Fit[®]

This rich, warm colorway blends subtle, natural hues to create a neutral tone that complements a variety of architectural designs.

Parchment[™] Cast-Fit[®]

A result of the combination of three shades of cream – the cool, modern color of Parchment[™] makes it compatible with many structures and styles.

Cast-Fit[®] Watertable/Sills

pitch and drip edge for water

applications.

Constructed with the appropriate

runoff, these veneers are designed

for top of stone wainscot and sill

Cast-Fit[®] stone veneers can be flawlessly integrated into the interior or exterior design of a structure through self-color or contrasting mortar options.

Commitment to Sustainability

Committed to thinking, designing and building green.

Sustainable Product Features

- **RECYCLED CONTENT.** We incorporate a minimum of 54% pre-consumer waste stream material into all our Cultured Stone® ProStone® veneer products.
- SUPERIOR DURABILITY. Our products stay beautiful and superior quality control measures, quality raw materials and industry leading testing provide the confidence to offer a 50-year limited warranty*. We meet or exceed the most stringent building code testing requirements in the industry, including the ICC AC-51. This testing has been evaluated and confirmed by ICC Evaluation Services and documented in ICC ESR 1364. Once installed, our products don't require painting, coating or sealing.
- LOW EMITTING. Our products have demonstrated through third-party testing meet the indoor air quality standards of the GREENGUARD Environmental Institute. In addition, we have met the even more stringent GREENGUARD Children & SchoolsSM standard, which represents some of the most rigorous building product emissions criteria to date.
