

D&V Philippines'

HOME & OFFICE-BASED

Accounting Solutions for SMEs

The coronavirus pandemic (COVID-19) has affected much of the global economy. Businesses are adjusting to cope up with the new reality. While most corporations and larger organizations have plans in place, small businesses are more susceptible to losses due to the crisis.

Small businesses are experiencing dramatic losses both on the demand and supply side. SMEs are also less resilient and flexible in dealing with the costs of adapting to changes in the work processes (e.g. remote working) given their size and resources, as well as the low level of digitalization and difficulties in accessing and adapting to the required technologies.

D&V Philippines is now offering **specialized finance and accounting (F&A)** solutions designed to help SMEs during these challenging times. We have come up with a **combination of home-based work setup and office-based work** to deliver our solutions, giving you the best of both worlds. With the help of the **latest cloud F&A software**, our team of experts will **help you manage your numbers** so you can **make better and financially-sound decisions** at **cost-effective rates**.

WHY D&V PHILIPPINES?

D&V Philippines is a trusted specialized F&A solutions firm catering to **more than 300 clients around the world**. Our client portfolio includes **SMEs, accounting firms, and CFOs of large companies** from a diverse range of industries.
