

**TONY MCMAHON**

Deputy Director, Operations Enterprise Computing Center

Tony McMahon currently serves as the Deputy Director, Operations Enterprise Computing Center under the IT Enterprise Operations Division for the Internal Revenue Service. He also serves as the Datacenter Strategy owner for Enterprise Operations.

Prior to his current role Tony served as Director, Detroit Program Management Office, where he provided the leadership and executive oversight in executing the transition of systems from Detroit to Memphis, Martinsburg and Ogden as part of the decommissioning of Detroit as a computing center. As Director, Transition State 2 (TS2) Planning, CADE 2 Program Management Office. In his role, Tony was responsible for establishing program-level controls, processes and artifacts by providing executive leadership for CADE 2 TS2 planning; the integrated master schedule; and requirements and program framework for the Enterprise Life Cycle. Tony served as Director, Enterprise Computing Center (ECC) from 2008 to 2011. There, he had operational responsibility for the three computing centers in Detroit, Martinsburg and Memphis, along with the New Carrollton Federal Building computer rooms and 52 other sites across the Service where ECC has staff. He also had operational responsibility for all application, enterprise and infrastructure servers and mainframes across the IRS.

Tony began his IRS career in January 1981 as a seasonal Tax Examiner in the examinations branch in the Memphis Service Center. Upon accepting a Systems Acceptability Test Analyst position, he relocated to Washington, DC in November 1983, where he traveled extensively until 1988 testing IRS systems. In 1988, he was selected for an Analyst position in the Electronic Filing Project Office, where he helped to coordinate the implementation of eFile. In 1990, Tony accepted his first management position as Chief, Electronic Filing Technical Support Section in Memphis. From 1990 to 2004, Tony went on to serve in a number of management roles including Chief, Electronic Systems Branch for the Tennessee Computing Center (TCC), Assistant Director, Enterprise Computing Center-Detroit and Assistant Director, Enterprise Computing Center-Memphis.

Tony was accepted into the Treasury Executive Readiness (XR) Program in 2004 and served in three executive developmental assignments during the course of the program. Upon completion in 2006, Tony was selected as the ECC Tier II Operations Tax Support Section Chief and in January 2007 became Branch Chief of that organization. In May 2009, Tony was accepted into the IRS Candidate Development Program (CDP) and graduated in September 2009 as a member of the Summer 2009 CDP Class.
