Executive Biography

Dr. Robert H. Laurine, Jr.

Chief Strategist for Intel and Consulting
Enterprise Services, U.S. Public Sector
Hewlett-Packard Company

Dr. Robert H. Laurine, Jr., is Chief Strategist for Intel and Consulting, HP Enterprise Services, U.S. Public Sector. He is in charge of creating, communicating, executing and sustaining strategic initiatives between HP and the federal government. In addition, Dr. Laurine serves as an Adjunct Professor of Engineering Management for his alma mater, The George Washington University, and on the Board of Advisors for Ingenicomm Inc. Prior to his position with HP, Dr. Laurine retired in January 2014 as a senior executive for the National Geospatial-Intelligence Agency (NGA).

During his 30-plus years of federal service, Dr. Laurine served in key leadership positions, including his role as NGA's Chief Information Officer, directing NGA's IT portfolio and governance process for more than 3,500 government, military and contract personnel, and executing a budget of more than \$2 billion; West Executive, managing the daily operations of NGA employees located off the east coast and acting as NGA's business continuity executive; Business Executive responsible for Agency-level cross-cutting issues and matters such as facility planning, investment portfolio planning, financial program execution and resource management; Deputy Director of the InnoVision Directorate, defining future needs and establishing plans to align resources; and Director of Research and Development, providing technology and process solutions to lead NGA customers and partners into the future.

Dr. Laurine graduated from the University of Maryland with Bachelor degrees in Geology and Computer Science, and holds a Master of Science in Computer Science and a Doctorate in Engineering Management from The George Washington University. He has been honored with the National Intelligence Distinguished Service Medal, the National Intelligence Superior Service Medal, the Federal Executive Board's Leader of the Year Award, the Presidential Distinguished Executive Award, the Presidential Meritorious Executive Award and the National Intelligence Award for Information Sharing. Dr. Laurine resides in Wilmington, North Carolina, with his wife Kelly and their children, Jack and Annie. He has two grown daughters, as well. His oldest, Stephanie, lives in Washington, DC, and his daughter Rebecca is in medical school in North Carolina.
