FOR IMMEDIATE RELEASE
July 31, 2015

PFANNENBERG GmbH ANNOUNCES APPOINTMENT OF NEW CSO

BUFFALO, NY, July 31, 2015– After more than 20 years of dedicated leadership and establishment of the global strategic growth, Ottmar Gerlach has retired as CSO of Pfannenberg Group Holding GmbH.

Mr. Gerlach will be succeeded by Blaine Witt, an experienced and respected Company veteran who was previously Senior Vice President of the North American Operations. Pfannenberg chose Mr. Witt for the position due to the rapid success in North America and his strategic vision and leadership worldwide.

Prior to joining Pfannenberg, Blaine Witt started his career as Field Applications Engineer for API Motion selling servo and step motor systems. Soon after joining API Motion he was promoted to National Sales Manager in charge of sales channel development and overseeing their national training program.

Blaine joined Pfannenberg in 1999 to establish Pfannenberg's North American operations and develop new sales channels. As a result of the success of Pfannenberg, Inc. Mr. Witt was promoted to Sr. Vice President of North American Operations in 2007.

In 2012 Mr. Witt was assigned a seat on Pfannenberg's new corporate board, in charge of Sales for the Americas. Blaine currently holds positions on Pfannenberg's Executive Board and the Buffalo Niagara Partnership's Manufacturing Council.

About Pfannenberg, Inc.

Pfannenberg, Inc. is a global manufacturer of thermal management, liquid cooling solutions and signaling technologies. Pfannenberg's enclosure thermal management products help some of the largest companies worldwide stay cool and safe, protecting and keeping electronic equipment running to avoid costly downtime. In addition to our thermal management products Pfannenberg also manufactures visual and audible signaling devices for security, industrial fire,

building, industrial process, disaster warning, hazardous areas, light art and illumination. Pfannenberger is proud to provide solutions as a single source to its customers. Our business philosophy – Protecting man, machine and the environment.
