CALCULATOR

The Value of All You Do

Client Name _____ Date _____

If something were to suddenly happen to you, your family might have to hire others to take on some of your daily activities. You'd be surprised at how all you do adds up!

- ▶ To see just how much, estimate the number of hours per week that you spend on each of the activities below.
- ▶ The final cost will then be part of the calculation of how much life insurance you need. Even if you earn no income, insurers generally allow you to get as much life insurance as your working spouse has.
- ▶ To get a full picture of your insurance needs, be sure to look at your spouse's life insurance coverage, too.

Estimated Total Costs					

This is how much life insurance you would need to cover these services⁵

⁴ Based on current market rate averages.

⁵ Inflation is assumed to be 3% and life insurance proceeds are invested to earn 4.5% after tax. The earnings on the life insurance proceeds, plus spending down the life insurance proceeds, will be used to cover these expenses over the expected period. The return is purely hypothetical and is used for illustrative purposes only. Performance results are not indicative of any particular investment. Actual results and investment risks will vary.
