## geoAMPS has an app that will improve project efficiency

As a  
technology  
provider,

**geo**  **AMPS**™

**geoAMPS** is

the leader in **creating software solutions** to manage land rights and infrastructure assets. geoAMPS technology brings together a real-time database with GIS mapping, remote accesses and mobile applications. Our product line is tailored to meet the specific needs of public works organizations. Whether the project involves right-of-way acquisition, road construction, railroad improvements, energy development, mining, land reclamation, document management or public asset management, geoAMPS has an app that will improve project efficiency. We offer public works organizations a paperless, environmentally friendly system that saves time and money. For more information, call (614) 389-4871 or visit [www.geoamps.com](http://www.geoamps.com).
