Janus International Launches SecurGuard™ Product Line for the Self Storage Industry
Janus launches the SecurGuard product line and introduces the SecurGuard Electronic Lock/Overlock/Monitor for Roll-up Doors & SecurGuard Wiring Harness

FOR IMMEDIATE RELEASE

(Temple, GA – August 24, 2015) Janus International Group, LLC today announced the launch of the SecurGuard product line, which is focused on providing individual self storage door access control and security solutions.

The first products in the SecurGuard product line include the SecurGuard Electronic Lock/Overlock/Monitor for Roll-up Doors (Electronic Lock) and the SecurGuard Wiring Harness, both of which will be released to the market this fall. The Electronic Lock, which has been patented in the U.S. and is patent pending in international markets, provides a secure interior (inside-the-door) electronic lock, automated overlocking and continuously monitored security and access control to individual self storage units. The solution will also support online, call center and rental station (kiosk) rentals and the ability for owner/operators to run an unattended facility.

The SecurGuard locking solutions will integrate seamlessly with PTI Security Systems industry leading access control and security solutions offering Self Storage owner/operators and their tenants with great features and benefits that provide both a tenant friendly and owner/operator friendly solution. The Electronic Lock and Wiring Harness are easy to install, easy to use, easy to maintain and cost effective.

Regarding the launch of the SecurGuard product line, Terry Bagley, Vice President of Business Development for Janus International stated, “this new product line is the result of Janus International’s forward thinking and expertise as the international leader in self storage door and hallway solutions. We know doors and how to best lock and secure them! The products being released this fall are the direct result of our expertise and innovation combined with our integration and partnership with PTI Security Systems.”

Jon Loftin, Vice President of PTI Security Systems noted “We are excited about Janus International’s launch of their SecurGuard product line and their initial products. We have worked closely with Janus to create a holistic solution that provides the best in access control and security for the self storage facility. The SecurGuard products are well integrated with our PTI products including our new DoorBoss™ Multiplexers. As the international leader in access control and security solutions for self storage - we know access control and security.”

The SecurGuard product line launch in the United States will be highlighted at the Janus International booth 624 as well as the PTI Security Systems booth 638 at the Self Storage Association (SSA) 2015 Fall Conference & Trade Show in Las Vegas from September 8-11, 2015.

That will be followed by the European launch of the product line at the Federation of European Self Storage Associations (FEDESSA) European Self Storage Conference & Trade Show in Amsterdam from October 6-7, 2015. The Latin America launch will occur at the Brazilian Self Storage Association (ASBRASS) Expo in Sao Paulo, Brazil on November 9-10, 2015. The Canadian launch will occur at the Canadian Self Storage Association (CSSA) Conference & Trade Show in Toronto on November 11-12, 2015.
