

# Crown Heavy-Duty Deep Cycle Batteries. Heavy-Duty Construction & Performance. The True Power in Golf.

### Heavy-Duty Construction

Crown deep cycle batteries combine advanced features such as high-performance plates and solid-cast connections to deliver more machine uptime, less maintenance and greater charging efficiency.

#### • Tough Connectors

Machine burned, heavy-duty TTP (through-the-partition), COS (cast-on strap) and terminal post connectors deliver maximum efficiency and durability.

Polypropylene Case & Cover
 Durable container design includes
 a removable handle feature for easy

installation and safe handling.

Anchor-Molded Terminal

Crown golf batteries molded in-cover terminal
affords superior durability, problem-free
installation and best-available corrosion

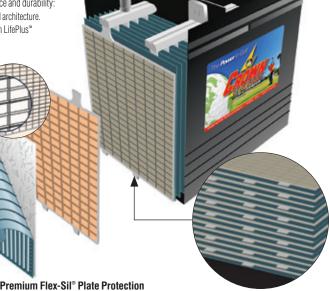

installation and best-available corrosion protection to deliver maximum productivity and safe handling.

#### • Z<sup>3</sup> Plate Construction

Crown's Z<sup>3</sup> design combines three integrated features for superior performance and durability:

- Our signature "Diamond Z" grid architecture.
- Centerline plate lug design with LifePlus™ active material.

Flex-Sil separators' micro-ribbed, fiberglass-backed design enables superior running time and extended cycle life performance with reduced watering service frequency.

## **Available Terminals**

## Standard Type

## Key

- **D** = Standard Terminal (Dual Automotive /Stainless Threaded Terminal)
- **F** = Stainless Steel Threaded Stud Terminal
- I = Cover with Individual Vent Caps / Spin Vent Option Available
- **J** = Battery Fitted with Handle or Lifting Lug
- L = Antimony Alloy Construction: Low Maintenance Service
