THE HEALTHCERT DIFFERENCE

“ It’s interesting, practical, and enjoyable. After attending courses for 30 years, I rank this as number one. ”

Dr. Peter Laundy, Malaga, WA

Welcome to the GP Professional Development Guide 2016/2017. This year we are celebrating 10 years of providing certified and accredited education for medical graduates in order to improve patient outcomes.

In collaboration with renowned universities and recognised industry experts, we are constantly developing new medical courses at certificate, advanced certificate and diploma levels which offer a complete learning pathway from foundation skills to sub-specialisation.

More than 6,500 GPs across 15 countries have attended our programs known for their comprehensive nature, ability to provide real-life examples and ultimately give GPs the skills to change their medical practice forever.

One of the strengths of upskilling with us is that you will become part of a strong alumni community and enjoy valuable support from renowned experts in medicine as well as exclusive access to special events, networking and learning resources. Most importantly, you will learn skills for life that will fit your busy schedule, professional skill set and personal career interests.

We look forward to taking the next step in your professional development journey with you.

The HealthCert Team

YOUR IMMEDIATE RESULTS

- ✓ Increase your diagnostic accuracy
- ✓ Address your patients’ concerns immediately
- ✓ Increase your income and grow your practice
- ✓ Feel safe and confident in treatment
- ✓ Minimise referrals to hard-to-access specialists
- ✓ Diversify and develop your clinical work

STRUCTURED CLINICAL ATTACHMENTS

In collaboration with universities, teaching hospitals and specialist private clinics, the HealthCert clinical attachment program provides GPs and clinical nurses with a comprehensive range of medical, surgical and clinical support training. Spend two to five working days enhancing your knowledge and clinical skills in dedicated treatment facilities by observing experienced doctors, participating in case discussions and picking up valuable hints and tips – this may include all aspects of treatment including initial consultations and patient treatment options as well as surgical procedures, use of equipment and patient follow-ups. Applicants must have completed courses with HealthCert in skin cancer medicine, dermatology or aesthetic medicine (or equivalent).

CLINICAL ATTACHMENT IN SKIN CANCER MEDICINE

The program can be tailored individually to the participant's special interests and may cover:

- First and second level screening of patients with benign and malignant skin tumors
- Confocal imaging of suspicious lesions
- Mole mapping facility tours
- Clinico-pathologic meetings
- Tumor board meetings for the multidisciplinary discussion of difficult cases
- Biopsy techniques
- Cryotherapy, curettage and field treatments
- Ellipses and direct repair
- Flaps and grafts
- Clinical notes and billing

Facilities:

- Redcliffe Skin Cancer Centre, Qld, Australia
- Medical University of Vienna, Austria
- University Claude Bernard Lyon 1, France

CLINICAL ATTACHMENT IN DERMATOLOGY

The program can be tailored individually to the participant's special interests and may cover:

- Inflammatory skin diseases
- Hereditary skin diseases
- Blistering diseases
- Dermatology in general medicine
- Occupational skin diseases

Facilities:

- Medical University of Vienna, Austria
- University Claude Bernard Lyon 1, France

CLINICAL ATTACHMENT IN AESTHETIC MEDICINE

The program can be tailored individually to the participant's special interests and activities may include, but are not limited to:

- Familiarisation with aesthetic clinic staff and roles, e.g. dermal therapist
- Aesthetic medicine consultations and treatment planning
- Skin assessment and prescription of cosmeceutical skin care
- Observe performance of office-based aesthetic procedures, including Botulinum toxin and dermal filler treatments
- Observe laser, IPL, PDT, skin needling, chemical peels, and radiofrequency treatments
- Consultation and management of specific skin concerns including acne, rosacea and melasma

Facility:

- Cosmetic Medical Clinic Southern Cosmetics, Melbourne, Vic, Australia

PRIMARY CARE

PRIMARY CARE OFFICE PROCEDURES WORKSHOP

Learn and practice various general surgery techniques and post-operative care methods with experienced surgeons. The program is highly practical and presented in a small group setting in surgical labs for maximum interaction with the presenters and surgical assistants.

The program includes theory and practical sessions on:

- Advanced suturing
- Ingrown toenails
- Foreign bodies
- Lacerations
- Lipomas
- Sebaceous cysts
- Leg ulcers
- Abscesses
- Haemorrhoids & anorectal conditions

GP-UPDATE

The GP-Update is a one-day course run by GPs for GPs, focusing on several clinical areas and the latest guidelines for diagnosis and treatment of common conditions and disease states presented in general practice. The program collates the latest issues, literature, research and guidelines, interprets these for real life general practice and helps you keep up to date with all current topics pertinent to primary care.

Participants will be presented with the most recent information on the diagnosis and treatment in general practice and receive access to the most contemporary, evidence-based literature and research in general practice.

Topics covered in the program include:

- Cardiovascular disease – including hypertension, chronic heart failure, atrial fibrillation
- Diabetes management
- Asthma and Chronic Obstructive Pulmonary Disease
- Chronic Kidney Disease
- Common dermatological conditions
- Musculoskeletal medicine
- Rheumatology
- ENT
- Intimate partner violence

BONUS: 250 page handbook with the most important research over the last 5 years

SKIN CANCER BUSINESS MANAGEMENT ONLINE WORKSHOP

Designed to assist medical practitioners, medical business owners and practice managers, the online workshop teaches the fundamentals of setting up and running an efficient skin cancer service in the primary care environment.

The program covers how to:

- Set up and lay out a skin cancer clinic according to ergonomic principles
- Select all tools and equipment required
- Implement all systems required, including financial and IT services
- Plan and execute the daily workflow including a specific appointment book structure
- Conduct efficient full-body skin examinations, note taking and image capture
- Train and use support staff to maximise efficiency
- Understand Medicare billing and other medico-legal regulations
- Market the clinic and skin cancer service efficiently
- Exceed patient expectations from the reception counter to the treatment room

The workshop includes 15 online modules, various reference materials and valuable information sheets and patient templates for download.

DATES AND LOCATIONS:

Available online throughout the year

FREQUENTLY ASKED QUESTIONS

Choosing a program

Our programs cater to medical professionals with ranging levels of expertise and interests, and offer complete learning pathways from foundation skills to sub-specialisation. Complete a short Skills Survey on our website to assess your skills or speak to our team for recommendations on the most suitable programs for you.

Study options and locations

You can choose between face-to-face and online programs. Face-to-face programs are held throughout the year all over Australia. Online programs follow a rolling trimester time schedule. For a small additional fee, online program participants can attend the face-to-face equivalent any time. For the ultimate hands-on skills practice, we recommend the clinical attachment program (skin cancer, dermatology or aesthetic medicine) in a dedicated facility.

Financial matters

Fees will vary based on the program and study-option selected (online vs face-to-face). Payments can be made upfront or in deferred, monthly instalments. You will benefit from our \$200 Early Bird Discount if you register 30 days in advance. GP registrars enjoy \$500 off on every face-to-face program and \$350 off online programs. Please subscribe to our newsletter to receive further special offer announcements.

Exclusive alumni benefits and support

Upon completion of a course you will become a member of our alumni community and receive unlimited access to free learning resources, monthly webinars and discussion forums as well as invite-only events and special offers.

Unique Learning and Total Satisfaction Guarantee

If you are not able to apply the course learning outcomes in your practice, get in touch with us within 90 days of course completion and you can attend the course again at no cost. If you are not satisfied with the course, simply hand in your course materials at the end of day 1 and we will provide you with a 100% refund.

Post-course support

Our course presenters and instructors are widely regarded as some of the world's foremost specialists and experienced clinicians in their respective fields of medicine and will provide assistance and support in your learning. We also provide support on the business side and can help you set up, run and optimise your medical practice.

Skin Cancer Blog

We encourage our skin cancer courses alumni to subscribe to our Skin Cancer Blog dedicated to facilitating post-course learning. The blog offers an excellent platform to share ideas, access video lectures and tutorials, submit your own clinical images and questions, and participate in weekly case discussions.
