Reverse years of stains in just 30
minutes without tooth sensitivity
Enamel safe dentist office
light technology

FOR DEEP STAIN WHITENING AND PROTECTION:

1. Shake the **Whitening Serum** for 3-5 seconds.
2. Apply the Serum to the surface of each tooth you would like to whiten; avoid the gums, as irritation could occur.
3. Re-dip brush as needed. Ensure the front and edges of your teeth are covered. Wait for 20 seconds for the Serum to dry before allowing your teeth to come in contact with your lips or tongue.
4. Do not eat or drink for 10 minutes to allow the serum to penetrate your teeth. It is not necessary to rinse off the Serum after 10 minutes, but if you wish to, rinse with water.

The Whitening Serum will work to penetrate your teeth to reduce surface and deep stains, and will also protect your teeth against stains from coffee, tea, wine, tobacco and yellowing caused by age! Keep the Serum in your purse, your bathroom, at work or wherever you need a quick touch up on the go. **Do not use more than 14 days in a row without the direct supervision of your dentist.**

Our lawyers insist we tell you...

Keep out of the reach of children under 12 years old. • Don't use this product if you are allergic to any of the ingredients. • If you're pregnant (CONGRATULATIONS!). Be sure to consult your doctor before using the product. • Avoid contact of the Serum with the lips or gums. If gum irritation occurs, discontinue use and rinse with water. Irritation should subside within 3-7 days.

TIPS for your best smile:

- Use the Electrifying Blue Toothpaste and Brisk Rinse back-to-back.
- Use the Whitening Serum on its own, not after the Electrifying Blue Toothpaste or Brisk Rinse. Why? The Bluverite® in the Toothpaste and Rinse will block the active whitening agent in the Serum from penetrating your teeth.
- Visit LusterProLight.com to learn about our Luster Pro Light Dental Whitening System to reverse years of stains in just 30 minutes, without tooth sensitivity.
