NURSE
CREDENTIALING
STREAMLINE YOUR CREDENTIALING PROCESS

Patient Safety. Quality of Care. These are just a few reasons why nurse credentialing is such an essential part of tyour facility's compliance program.

Nurse Credentialing from symplr gives you an easy and efficient way to manage the credentialing of all your staff, agency, and student nurses. From competency to liability to infection prevention — you define the requirements for your facility and we take it from there! Our easy-to-use portal makes light work of uploading documents and signing policies.

CHECK OUT THESE BENEFITS:

- **Flexible Credentialing** — Enables you to customize requirements for your nurses based on your facility's needs.

- **Easy to Implement** — Web-based means no expensive hardware to purchase or maintain.

- **Global Site Administration** — Easily manage multiple facilities with variable levels of privilege and access rules based on your user profiles.

- **Customizable Dashboards** — At-a-glance visibility of critical data, and real-time compliance status against credential and policy requirements.

- **Analytics & Reports** — Create and run reports and export them quickly for additional data analysis and to demonstrate compliance.
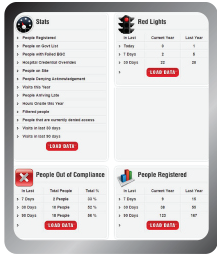

"symplr is an incredible solution that greatly enhances our onsite security and compliance."
—Brian M., System Director of Security
