PROVIDER MANAGEMENT
THE SYMPLR WAY
AUTOMATE THE ENTIRE LIFECYCLE OF PROVIDER MANAGEMENT

Provider management is critical for any facility. Implementing the right solution enables you to meet compliance requirements, eliminate inefficiencies, and improve your providers' quality of care.

Applications. Verifications. Enrollments. Privileging. Ongoing Evaluations. Focused Evaluations. Peer Review. Event Reporting. These are just a few of the things you have to consider when managing your provider community. When doing this across multiple departments and facilities, pulling data from different systems and running your program soon becomes overwhelming and unmanageable.
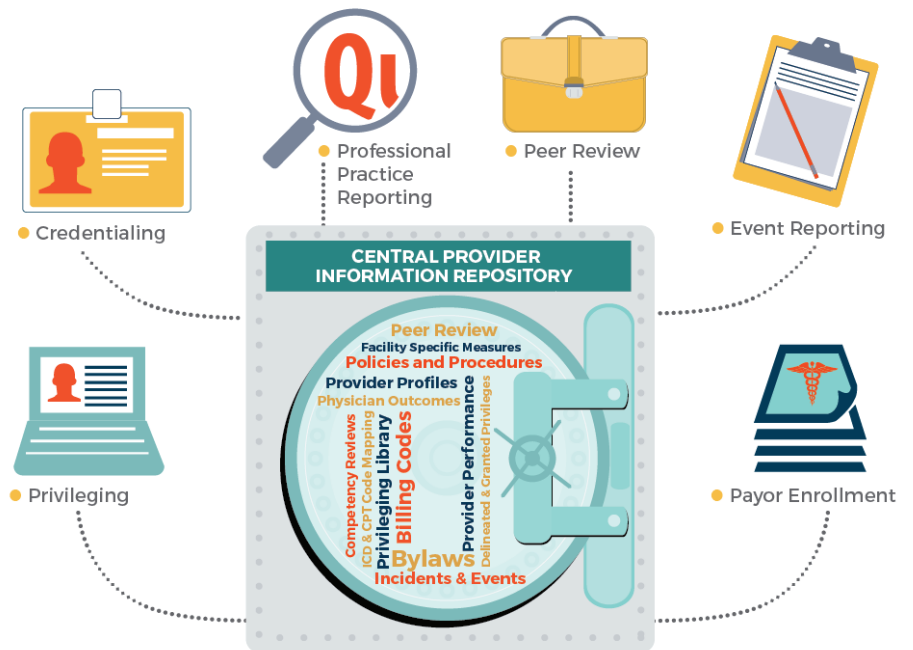

That's where we can help! symplr Provider Management gives you a single central source of provider information and the tools to make you more productive. It's also fully configurable to suit your unique needs and easily tailored to support departmental workflows.

Thousands of facilities nationwide trust their provider management to symplr.

CHECK OUT THESE BENEFITS:

■ **Central provider information repository** — Provides a consistent, accurate, single source for all your provider information — across your facility or network of facilities — to ensure compliance with your bylaws and accreditation.

■ **Completely integrated** — No more stitching together data from multiple systems — credentialing, privileging, quality, peer review, and event reporting — are all integrated. This provides you with "single pane of glass" visibility to manage the complete lifecycle of your providers.

■ **Web-based** — Means you can go paperless, eliminating those bulky files without buying expensive hardware or software.

■ **Works the way you work** — Our modular structure and configurable workflows make it easy to align your provider management program with your staff's work processes. You can share key provider data across multiple departments — from credentialing to risk management to quality.

■ **Easy to implement** — A web-based solution, coupled with our extensive experience, means you're up and running quickly.

How it all fits together

CENTRAL PROVIDER INFORMATION REPOSITORY

Credentialing · Professional Practice Reporting · Peer Review · Event Reporting · Privileging · Payor Enrollment

Peer Review · Facility Specific Measures · Policies and Procedures · Provider Profiles · Physician Outcomes · Competency Reviews · ICD & CPT Code Mapping · Privileging Library · Billing Codes · Provider Performance · Delineated & Granted Privileges · Bylaws · Incidents & Events

Provider Credentialing

Manage your entire medical staff operations from one easy-to-use web-based application. From provider application and verification to committee appointment, payor enrollment and expirables management – our solution will guide you through every step, saving you valuable time, money, and resources. With symplr, credentialing your providers couldn't be easier.

Provider Privileging

Leverage the power of the world's most comprehensive and current Provider Privileging Library. Never research a privilege again! Provider Privileging from symplr does the heavy lifting for you – our expert and experienced team of researchers continually consult with industry experts and thought leaders to deliver the most complete and up-to-date repository of hospital privileges. Review by specialty and edit to meet the needs of your facility, it's that simple! Also, all of our privileges come ready linked to CPT, ICD-9, and ICD-10 codes to enable quality management and performance improvement.

Professional Practice Reporting

The symplr PPR solution leverages our comprehensive Provider Privileging library and our Electronic Medical Records to give you a complete overview of the quality of care demonstrated by your providers. Know exactly how your providers are performing, including which privileges they utilize, procedures they perform, and the diagnoses they make. Benchmark their performances and see how a provider compares to peers and to your entire community of providers in terms of readmissions, length of stays, and mortalities.

Provider Peer Review

Peer Review from symplr enables you to easily maintain a consistent standard of peer review across all departments and providers. Quickly implement processes and policies, and provide transparency and accountability to your peer review program. Easily manage cases and reduce the risk of lost information. Our provider Peer Review leverages best practice workflows created by Horty Springer, a trusted legal source and subject matter expert. Our solution also guides you step-by-step through the process of establishing these automated workflows to ensure your policies are easily deployed and enforced.

Event Reporting

Reduce risk and improve patient safety with symplr Event Reporting, a web-based, automated incident capture and reporting solution. Staff, patients, visitors, anyone… can quickly capture incident details and report them as they happen. This enables you to respond and remediate quickly while also creating a comprehensive event log. It integrates with our QPI module, so you can easily monitor and analyze incidents to identify potential and critical issues.
