## Hi-Tech Optical Presents

# 20/20 PRESCRIPTION SAFETY EYEWEAR PROGRAM

Thank you for your interest in Hi-Tech Optical, Inc. (HTO). We are the Mid-West's Largest Prescription Safety Optical Laboratory, specializing in complete "customized" safety eyewear programs. HTO services the nation's largest industrial plants and a long list of large and medium sized employers.

### Customized Programs

HTO understands that every customer is different and has their own unique requirements, so we will create a specific plan to meet your company's individual needs. When starting a new program, we focus on integrating the needs of Management, Labor, Purchasing, and Safety into one complete and highly competitive safety eyewear package.

### Provider Network

Hi-Tech Optical selects from a panel of qualified eyecare professionals conveniently located near your facility for all your dispensing needs. HTO will make sure each provider has the correct safety frame samples at their location along with a complete understanding of how your program would work.

### HTO In House Dispensing

A highly qualified representative of Hi-Tech Optical will visit each of your facilities on a regular scheduled basis or by appointment. HTO will bring many frame styles and assist your employees with their frame selection, measuring, ordering and perform minor repairs on site.

### RX Safety Glasses & Safety Frames

HTO strictly adheres to quality assurance, which means that you will always have confidence in your prescription safety glasses. Your new glasses are created when a safety eyewear frame of your choice is combined with your precisely made prescription lenses. Safety frames are marked with the "Z-87.2," which is a government safety eyewear standard. All the frames in the HTO safety eyewear program are fashionable, as well as, functional for the workplace environment. Respirator spectacle kits are also available.

### Hi-Tech Optical 12 Month Guarantee

Hi-Tech Optical guarantees that products are free from defects in material and workmanship for 12 months from the date of purchase. If a product should fail during this period, Hi-Tech Optical agrees to repair or replace the frame and lenses in the same style, color, size or nearest likeness at our discretion at no charge. This does not cover abused, scratched or lost glasses.

All products listed meet or exceed all standards established by Z87.1 & Z87.2  
Prices and specifications are subject to change without notice.
