# Benefits of the Cloud

**Easier** – Out of sight, out of mind

**Cheaper** – No bulky, expensive (loud) hardware!

**Access** – Do your work anytime, anywhere

**New Standard** – Cloudy skies ahead in tech world (that's a good thing)

**Transition** – Pass baton to incoming board members easily

**Disaster Recovery** – Have a built-in backup plan

## eUnify

**About Us:**
eUnify's cloud-based property management software includes interactive Resident Portals and uManage for violations, work orders and ARC requests. Our solution provides anytime, anywhere access with a mobile app. eUnify offers the tools and features self-managed HOAs and property management companies need.

# 3 Tools You Need to Succeed

1.

**QuickBooks.**
Accounting System

2.

**Resident Portal**
Site for Homeowners

**eUnify**
Integration

3.

**uManage**
Online Platform for Operations

**1.  Accounting System:**  eUnify integrates with a number of industry accounting titles, including C3, Jenark, QuickBooks, Sage, and TOPS.

*If you are with a self-managed HOA, QuickBooks Online is a great choice!*

**2. Resident Portal:**  eUnify's secure site that homeowners have login access to for viewing community announcements, documents, and events, and for viewing personal account information.

*Make sure homeowners can pay online!*

**3.  uManage:**  eUnify's online operations platform that saves you time and money while tracking violations, work orders, and architectural requests.

*A true mobile app that works even if you lose signal!*

**Integration between these three tools is the key to your success.  Let your systems talk to each other and automate your processes.**
