

TurtleSkin® CP Platinum Wrap

Full Coverage Cut Protection, Puncture Where You Need It

The Platinum Wrap CP gloves are a great safety solution for jobs with high cut threats and also require some puncture protection. Constructed out of a HPPE shell, these gloves provide extended cut resistance to the entire hand. They provide excellent protection against hypodermic needles, broken glass, metal edges, and other sharp threats. The nitrile coated palms provide excellent grip when handling wet or oily surfaces.

*No glove is completely cut or puncture proof
