

TurtleSkin® CP GRIP 400 Series

TurtleSkin's Cut and Puncture Resistant Gloves with added Grip

The CP Grip 400 series gloves provide advanced cut and puncture protection. The gloves feature polyurethane coated palms that provide excellent grip when handling wet or slippery surfaces. Constructed with 2 plies of TurtleSkin's CP material the Grip 400 series gloves provide reliable protection against hypodermic needles, jagged glass, metal edges, and other threats. These multipurpose work gloves are great for high risk and dangerous applications with exposure to sharps.

*No glove is completely cut or puncture proof
