STRAFFORD RELEASES SAP BPC 10.0 TEST DRIVE ON AWS

Explore the benefits of SAP Business Planning and Consolidation (BPC) on the Amazon Web Services Cloud

Londonderry, NH, June 23, 2015 – Strafford Technology, providing consulting services addressing the challenges of Finance Departments with fully supported Business Intelligence (BI) and Enterprise Performance Management (EPM) applications on premise and in the cloud, today announced the release of an Amazon Web Services (AWS) Test Drive for SAP Business Planning and Consolidation (BPC).

The AWS Test Drive for SAP BPC 10.0 from Strafford provides free access to the latest version of the best-of-breed Planning and Consolidation reporting application from SAP. With the full functionality of the on-premises version of the product, users will be able to explore all areas of the application, including creating and adjusting a forecast based on historical financial information and stepping through an example Business Process Flow. Financials can be accessed through both the web-based application and directly from within Microsoft Excel.

> *"A benefit of the test drive is that it allows users to have their own cluster of servers built quickly for them, and then they simply login and explore the application with our custom-built lab," says Steve Berry, CEO. "The Test Drive for SAP BPC 10.0 enables anyone to quickly and easily explore the benefits of using this software on the AWS Cloud."*

The custom developed training lab and video guide users through the process as the power and simplicity of one of the most widely used planning, forecasting and consolidation tool in business today is demonstrated. The Test Drive is provided free of charge for demonstration, education and evaluation

purposes. It includes enough complimentary AWS server time to complete the Test Drive, and users can return any time to experiment and explore.

The free AWS Test Drive for SAP BPC 10.0 from Strafford can be found by visiting: http://www.sap-bpc-test-drive.com/.
