STRAFFORD UPDATES ORACLE HYPERION TEST DRIVES

Updates existing Test Drives to the latest Hyperion version and adds additional Hyperion Applications

Londonderry, NH, September 15, 2016 – Strafford Technology, providing consulting services addressing the challenges of Finance Departments with fully supported Business Intelligence (BI) and Enterprise Performance Management (EPM) applications on premise and in the cloud, today announced the release of their updated Amazon Web Services Test Drives for Oracle Hyperion Financial Management and Hyperion Planning.

The Strafford AWS Test Drives for Oracle Hyperion Financial Management and Hyperion Planning have been updated to version 11.1.2.4, providing access to the latest version of the Best of Breed Financial Management, Budgeting and Planning applications from Oracle.

With the full functionality of the on-premises version of the product, users will be able to survey all areas of the application. They can create a forecast based on historical financial information and adjust it based on key business drivers. Users will also be able to access financials through both the web-based application and directly from within Microsoft Excel.

> *"A benefit of the test drive is that it allows users to have their own cluster of servers built quickly for them. Then they simply login and explore the application with our custom-built lab," says Steve Berry, CEO. "The Strafford Test Drives for Oracle HFM and Planning enable anyone to quickly and easily explore the benefits of using this software on the AWS cloud. The Test Drives are provided free of charge for demonstration, education and evaluation purposes. They include enough complimentary AWS server time to complete the Test Drive, and users can return any time to experiment and explore."*

In addition, AWS Test Drives have been created for four more Oracle Hyperion products:

- Oracle Business Intelligence Enterprise Edition 11g
- Oracle Hyperion Profitability and Cost Management 11.1.2.4
- Hyperion Close Management 11.1.2.4
- Oracle Tax Provision 11.1.2.4

You can find the Strafford AWS Test Drives for Oracle Hyperion products by visiting: http://www.hyperion-test-drive.com/.
