FOR IMMEDIATE RELEASE  
March 31, 2015

## NEW QUIKPLAN FOR STRAFFORD'S ORACLE HYPERION PLANNING SOLUTIONS

One of three partners worldwide with an Oracle certified Fixed Service Offering for PBCS  
The only partner worldwide with a pre-built application for PBCS deployment

**Londonderry, NH, March 31, 2015:** Strafford Technology, providing consulting services addressing the challenges of Finance Departments with fully supported Business Intelligence (BI) and Enterprise Performance Management (EPM) applications on premise and in the cloud, has developed a new application as part of their QuikSTART implementation for Oracle Planning and Budgeting Cloud Service.

The QuikPLAN application applies a unique approach and methodology to quickly deploy PBCS. QuikPLAN provides templates for Balance Sheet and Income Statement accounts and variance analysis using Budget vs. Actual numbers, as well as pre-built forms for the Balance Sheet, Income Statement and Variance Analysis. In addition, QuikPLAN includes pre-built basic Dimensions and Calculations elements. It can dramatically decrease PBCS implementation time.

*"QuikPLAN is now part of every QuikSTART implementation, and makes it even easier to get clients up and running. By leveraging Strafford's QuikSTART for Oracle PBCS, a company's new budgeting system can be up and running in 10 weeks or less", states Strafford CEO Steve Berry.*

QuikSTART includes a full implementation process, dimensions, input forms/grids, SmartView for Office, reporting, testing, training and documentation.
