

# From start to finish, it's all in the details.

## Space planning and design

Planning and designing your space is a creative process where every detail matters. We know one of the most important details is a true understanding of how your associates work. That's why our expert design team works closely with you to understand your business goals. The result? An intentionally purposeful space that inspires passionate leaders, analytical problem solvers, and the creative go getters that inhabit it.

We know that when the light bulbs go on and ideas begin to take shape, incredible things can be accomplished together. When collaboration thrives and functionality flourishes by design, businesses grow and communities prosper. We know beauty doesn't have to be impractical. That practical can be truly awe-inspiring. And, that form should always follow function. Why? Because great spaces only matter if they work, and to us it's so much more than just a space. It's life.

## What we do

We challenge the status quo and strive to change the way you think about work. Our designers know trends and can provide valuable insight to help you plan. Also, we're creatively charged and passionate about the future, so we'll help you anticipate your future working needs while designing a flexible solution.

We're open to new ideas too. That's why we'll conduct data gathering interviews, analyze your work process, and complete a workplace environment audit before we put pen to paper.

### Hundreds of manufacturers to choose from:

Our design team has access to hundreds of manufacturers from the ground up. Whether it's flooring, furniture, branding graphics or DIRT pre-fab modular interiors, we can find the right solution for your business.

### Design Services

- Space planning & test fits
- Natural & artificial lighting options
- Furniture selection and specification
- Color selection
- Material identification
- Furnishings selection
- LEED certified design solutions
- Artwork & accessory selection
- Coordination with other trades
- Communication during installation
- Punchlist facilitation & completion
- Ongoing inventory management
- Ongoing drawing maintenance

## How we do it

We're dedicated and deliberate in every relationship we make. That's why we believe in a three-phase creative process to ensure that we've addressed every detail to deliver the best results, every time. Additionally, everything we do is technology-enabled, which means you have access to your project at the tip of your fingers anytime, anywhere.

### Discover

First, we want to know you and your goals. Our group of creative problem-solvers will interview you and conduct a full workplace audit to create a customized, original plan that will address your workspace challenges.

### Design

That same group of trusted industry experts will address those challenges. You'll get a tailored, comprehensive design solution specific to your goals, whether you're planning just for today or tomorrow, too.

### Deliver

Action is everything. We push ourselves to explore new possibilities and generate solutions to any problem. And this resourceful approach to how we work allows us to find solutions others can't.
