

August 2016

Dear Prolacta Customer,

Over the course of the next few weeks, you may notice a transparent Nalgene logo on the top of some [Prolact+4 H²MF[®]](#) and [Prolact RTF 26](#) bottle caps.

I want to assure you that these branded bottle caps are identical to the standard bottle caps customarily used with our products. Both bottle caps are supplied by the same manufacturer with the same composition, quality and safety standards.

We are proactively alerting you to this temporary variation because, as the leader in our industry with a strong commitment to safety and quality, we want you to always know that you are receiving the safest and highest quality products from Prolacta.

If you have any questions, please feel free to contact Prolacta at info@prolacta.com.

Thank you,
Cynthia Denny
Product Marketing Manager
Prolacta Bioscience, Inc.
