

Walkway

FTR CROSSGRIP

Product Data

The FTR CROSSGRIP walkway is an open grid PVC material with cross directional top ribs that provides positive traction with a slip resistant design.

DESCRIPTION

The FTR CROSSGRIP walkway is an open grid PVC material with cross directional top ribs that provides positive traction with a slip resistant design. The walkway material is available in 2-ft wide by 9/16-in high by 33-ft long rolls.

The walkway is loose laid on the roofing membrane for ease of installation and has been tested to withstand wind speeds up to 90-mph without any additional attachment. For high wind areas the walkway can be secured to the FiberTite roofing membrane with welded loops / strips of FiberTite.

FTR CROSSGRIP walkway is available in light grey and yellow. It is also available in 3-ft and 4-ft widths with special order and lead times.

Composition: Flexible Plasticized Polyvinyl Chloride (PVC)

Warranty: 5-Years
