

**AV** 110 Everywhere™

AV connections over UTP cabling

Hubbell Premise Wiring

## iSTATION: HDBase-T In-Wall HDMI Extender

### HUBBELL Advantage

- Extend HDMI, USB, RS232, and IR Up To 328ft over UTP
- 110 Termination Reduces Installation Time
- High Definition Digital 4K Video and Audio With Control
- Utilize Same Cable for Current and Future Applications

Hubbell's High-Definition 110 Video Extender with HDBase-T transmits up to Ultra HD 4K video signals over one solid, unshielded, twisted-pair (UTP) cable, allowing video display devices to be located a maximum of 328 feet away from a digital source. Additionally it supports repeating of RS232, IR, and USB 1.1 control signals. Ideal for interactive white boards, projectors, HDTVs, flat screens, monitors and other video display devices. The Hubbell HDBase-T Extender is supplied as a kit with both Source and Display adapter frames/modules that feature multiple LEDs to indicate that power and signal are working properly.

### Features

- Locating a display device up to 328 feet (100m) away is as simple as pulling one UTP cable to a drop
- Terminate with one Category 6A, 6 or 5e UTP or shielded, plenum or non-plenum cable
- Supplied as a kit with both Source and Display modules

### Specifications

- Connectors: HDMI 19-pin, Type A, female connector, gold plated 2μ"
- IDC Contact: phosphor bronze with tin plating over nickel under plating
- Material: high impact thermoplastic
