

## AV 110 Everywhere™

AV connections over UTP cabling

Hubbell Premise Wiring

## iSTATION: VGA and 3.5mm 110 Module

### HUBBELL Advantage

- Extend VGA Video and 3.5mm Audio Over UTP
- 110 Termination Reduces Installation Time
- HD High Definition Audio Video
- Customize Point to Point Runs on Site

Hubbell's VGA 3.5mm 110 Audio/Video Extender transmits HD AV signal over two solid, unshielded, twisted-pair (UTP) cables, allowing video display devices to be located up to 75 feet away from the source. Ideal for projectors, smart-boards, HDTVs, flat screens, monitors and other AV devices. The VGA 110 Extender is supplied as a kit with both Computer and Display modules. These passive modules also provide DDC2 communications for device sync.

### Features

- Locating a display device up to 75 feet away is as simple as pulling two additional UTP cables to a drop
- Terminate with Category 5e, 6 or 6A UTP plenum or non-plenum cable
- Supplied as a kit with both Computer and Display modules

### Specifications

- Connector: 15-pin HD15, D-Sub VGA style analog video, female connector, 3.5mm female jack
- IDC contact: phosphor bronze with tin plating
- Material: high impact thermoplastic
