

- iSTATION System Integration
- Standard Hubbell Keystone Opening
- 3.5mm Stereo Audio (TRS)
- RoHS Compliant

#### FEATURES

- Easy 110 punch down termination
- Use with mono and stereo audio applications
- Standard 3.5mm stereo jack

#### SPECIFICATIONS

- Connector:
  - Connector body: brass
  - Nickel plated: 2μ"
  - Type: female to 110 IDC
- Material:
  - Snap Fit connector body: flame retardant high impact thermoplastic
  - Rated UL 94 V-0
- Cable type: Category 5e/6/6A

#### PERFORMANCE

- Electrical:
  - Distance: 75 feet
- Mechanical:
  - Mating cycles: 500+

#### STANDARDS

- UL Listed 1863
- RoHS Compliant

## HUBBELL iSTATION 110 Termination 3.5mm Stereo Jack

Hubbell's 110 Style Termination 3.5mm Stereo Jack is the perfect solution for distributing audio signal to and from devices. Today's computers and portable electronic devices have standardized on the 3.5mm stereo jack for audio distribution. Having this connection in the plate has become a requirement.

Requiring standard 110 style termination, these connectors install with a "snap" and provide a quick plug in style termination. HPW's 3.5mm Stereo Jacks are available in black only and flush mount into all Hubbell iSTATION plates, modules, frames, surface housings and UDX multimedia panels.

Create a customized multimedia workstation by adding a 110 Style Termination 3.5mm Stereo Jack along with Hubbell's extensive line of AV connectors, loaded modules, Category rated jacks and fiber connectors.

#### GENERAL INFORMATION

- Important: Always allow for clearance behind connection location to ensure for proper bend radius
- Supplied with IDC termination caps

#### APPLICATIONS

- Laptop and desktop computers
- Projectors
- Flat panel monitors
- CD, DVD, DVR, MP3, media players
- Gaming devices
- Mobile devices

Office White	<b>IM15311015OW</b>
White	<b>IM15311015W</b>

INSTALLATION TIPS

Termination: Station cable side of connection is a 110 style punch down. Simply lace in pair 1 and pair 2 from left to right on the IDC block. For example pair 1 (the blue pair) use the (pin 3) blue conductor and then (pin 1) blue/white, (pin 2) orange, (pin 4) orange/white. The key practice is to use the same pair/pairs on each side of the horizontal run.

Important: Use the same pair color combinations for each application (composite, component, left and right audio, 3.5mm and S-video).

- 3 Blue
- 2 Orange
- 1 Blue/White
- 4 Orange/White
