

IMPORTANT NOTICE

When this equipment is used as part of an audio monitoring system, the law requires that the public be given notice of “AUDIO MONITORING ON THE PREMISES”. A decal notice is included with each microphone shipped.

THE LAW REGARDING AUDIO SURVEILLANCE

United States Codes, Title 18, Section 2510 (2) states:

Oral communication means any "oral communication" uttered by a person exhibiting an expectation that such communication is not subject to interception under circumstances justifying such expectation.

By definition of the code section, a person cannot have an expectation of privacy, nor can he or she expect that communication will not be intercepted, if there are public signs posted, indicating that the communication is being monitored.

The First Amendment of the Constitution provides that any conversation between individuals is private, unless otherwise notified. In simple terms, this means that any overhearing or recording of a conversation is illegal ...unless both parties are aware that it is being done.

In order to comply with the law, *iTech Digital* provides a disclaimer stating, AUDIO MONITORING ON THE PREMISES. These disclaimers must be affixed, in plain view, to all entrances where the microphones are installed.

It is suggested that dealers notify customers, at the time of installation (or sale) of the equipment, that disclaimers must be in plain view at all entrances and exits.

NOTE: STATE LAWS MAY VARY. *iTech Digital* recommends that you consult with your local attorney, and become fully aware of the local laws in regard to audio recording.
