"We selected ClubPay because of their intuitive, robust, and easy-to-use system..."

The Challenge

Jonas Software is a rapidly growing large company. As a result of new acquisitions and partnerships, Jonas Software has gained a team of employees and companies spanning world-wide. Now, more than ever, Human Resource & Payroll solutions play a critical part within the company's infrastructure. As the company grew, maintaining Payroll and Human Resources became less efficient with their current payroll provider.

With growth came intermittent company and employee changes, as well as, additional tracking and reporting requirements. Jonas Software recognized that it was time to find a HR Payroll system that would be able to withstand and adapt to the company's needs, and to provide flexibility to customize modules to their specific requirements.

The Success

Having an easy-to-use and integrated HR Payroll system has simplified much of the HR, Benefits, and Payroll process for Jonas Software. These services provide Jonas Software with the flexibility and control needed over this part of their business. The ClubPay & Jonas Software relationship is built on a complete understanding of Jonas Software's needs. It is ClubPay's commitment to provide Jonas Software with the most cost-effective and efficient solutions available in the market today.
