

# 2016 HUBSPOT ROI REPORT

*The Return on Investment from Inbound Marketing Through Implementing HubSpot Software*

Every year, HubSpot takes a look at real customer data and commissions an MIT Sloan student to crunch the numbers. This report captures the return on investment HubSpot customers have experienced from conducting inbound marketing with HubSpot software.

The analysis comes from customer survey responses and customer web data over a 24-month period for each customer, spanning 2013 and 2015. It is focused on three fundamental pieces of the marketing methodology, as you can see in the diagram below:

- 1) Attracting strangers to become website visitors
- 2) Converting website visitors to leads
- 3) Closing leads into customers

This graphic represents a brief overview of the inbound marketing methodology. Get the details at [hubspot.com/inbound-marketing](http://hubspot.com/inbound-marketing).

Through our analysis, we have determined the following key takeaways:

- **Attracting Site Visitors: Customers reached 4.1 times more visitors per month within 1 year.**
- **Converting Visitors to Leads: Customers reached 3.0 times more leads per month within 1 year.**
- **Turning Leads into Customers: 79% of customers who responded to the survey saw an increase in sales revenue, 67% of which experienced this increase within 7 months of using HubSpot. Meanwhile 83% of the customers experienced an increase in the conversion rate of leads to customers.**

Additional Benefits of HubSpot and Inbound Marketing

- **96% of customer respondents agree that HubSpot has helped them meet their marketing goals.**
- **68% of customer respondents felt they generated better quality leads, since using HubSpot.**
- **46% of customer respondents saw an increase in their customer satisfaction since using HubSpot.**

HubSpot customers of all sizes saw significant increases in site traffic and lead conversion rates. The following tables break the data down by customer groups:
