Capability Statement

The world's first and only product to help wheelchair users and people with mobility impairments pull up their pants

US Patents: 9084501-B2 / 8990978-B2

Core Competencies

Products to assist those with paraplegia, spinal cord injuries and wounded veterans with Activities of Daily Living (ADL). Pants Up Easy enables users to lift themselves just above the wheelchair or toilet seat, leaving hands free to pull pants on & off while dressing or using the restroom.

- Reduces pain and pressure sore irritation associated with pulling pants up
- Saves significant time
- Reduces embarrassing moments
- Maintains individual dignity and independence
- Reduces need for assistance from others while dressing
- Target populations
 - o Service (SDV) and other disabled veterans
 - o Disabled Federal employees (restroom)

Easy, Hands-Free Lift System 3 easy steps in a matter of seconds!

Past Performance

Pants Up Easy is a new vendor to the government. However, we have been providing products to those in need and have many satisfied customers since being established in 2012.

Differentiators

- First and only product of its kind
- Serve US Gov't locations worldwide
- Easy-to-use leverage system
- Non-motorized lift system
- Simple set-up (TMF & WMF models)
- Clean and sanitary
- Mobile and stationary models
- Technical assistance and videos available
- Made in USA
