FIBER OPTIC CONNECTOR SOLUTIONS AND TESTING

Fiber Optic Connector Solutions and Testing Seminar

Tuesday, May 17, 2016

RSVP by Monday, May 16, 2016

Please join us for a FREE Fiber Optic Connector Solutions and Testing seminar. This interactive 6-hour session will provide attendees with a comprehensive overview of the latest fiber optic termination and testing technologies. This hands-on training will allow attendees to work with Corning's fiber optic connector termination kits and Fluke Network's latest fiber optic test equipment.

Attendees will receive expert instruction on termination and testing of both MM and SM fibers with SC, ST® and LC Connectors when installing fiber optic systems to meet industry specifications. BICSI and ETA (CEC) credits apply.

Who should attend? Contractors, consultants, and end users seeking a broad overview and basic hands-on experience with fiber optic connectors and test equipment.

TRAINING SEMINAR TOPICS

Presented by Corning Cable Systems

- Fiber Optic Termination Overview
- Termination Methods
  - Anaerobic (Epoxy & Polish)
  - Pigtail splicing
  - Splice-on connector
  - UniCam® (No Epoxy/No Polish)
- Fiber Optic Connector Types
  - SC
  - ST® compatible
