Symmetry

SAP HANA® Offering

Take a Test Drive

Rapid Deployment Proof of Concept Lab / Demo Hosted Solution:

Join Symmetry's hosted demo program to test drive your landscape in our secure rapid deployment POC environment. Demo clients will be setup in a Symmetry-hosted SAP HANA testing environment where complete end-to-end solution performance metrics can be established.

Mapping Your Course

Readiness Service - System Upgrades:

Let Symmetry help you check off the minimum technical requirements to become SAP HANA ready. Project upgrades can be in Symmetry's hosted environment or in the client's on premise environment.

☐ Enhancement Pack for HANA   ☐ Unicode   ☐ Minimum SAP Version

Arriving at Your Destination

SAP HANA ROI Business Assessment:

Receive a detailed report of what real-time business processes will be accelerated by SAP HANA, including the estimated time and cost-savings, to determine if SAP HANA is right for you.

NOBLE

Noble Corporation
SAP HANA® Proof of Concept Lab

Goals for POC...

- Utilize **enhanced functionality** of SAP HANA

- Increase reporting speed through **instant reporting** capabilities

- Enhance ability for **faster response times**

Overall Speed - Fast Analysis - Real Time Reporting...

	Current Environment	*vs.*	*with SAP HANA*
BW ODS Activation	*45+ mins*	*to*	*less than 1 min*
Overnight Activation	*12 hours*	*to*	*4 hours*
Summary Reports	*25 seconds*	*to*	*5 seconds*

" Our initial testing already proves we can **greatly increase speed** with the enhanced functionality **SAP HANA** has to offer. This allows for the **opportunity to optimally utilize** our **SAP** environment like never before. "

- Martina Schraven,
Director of Application Development & Support
