

5.11.15

We purchased a Power Mate Stair Climber hand truck from LP International INC back in September 2012 and have nothing but great results from this product. We use it daily to carry 12oz and 20oz beverages up 25-30 stairs daily, seven day a week, also use it when needed to install vending machines up stairs to break areas. We have used other brands in the past, they did not hold up like the Power Mate L series. I would recommend this stair climber to anyone looking for a durable reputable piece of Stair Climber equipment.

Sincerely,

Scotty Blackman
