REVIVE

professional ice roller

#VPBEAUTY | VANITYPLANET.COM

YOUR REVIVE

The Vanity Planet Revive Ice Roller is an innovative way to refresh, tone, and tighten your skin with one simple tool. Cold therapy has been utilized by spas, estheticians, and celebrity makeup artists for years to create instantly brighter complexions and reduce the discomfort caused by fatigued, treated, and irritated skin.

Revive harnesses the power of cold and conveniently works it into your daily beauty routine. This durable, hand-held tool is easy to use and comes with a variety of benefits.

Revive is a cooling tool that visibly tightens and firms your complexion in minutes. This compact and travel friendly rolling device imitates the power of ice to treat muscle and skin conditions. It is also an ideal way to delicately lessen any redness and discomfort before or after certain cosmetic treatments.

HOW TO USE

Place the roller in the freezer for a minimum of 4 hours prior to first use. Make sure your face, or any area of your body that needs a cooling effect, is fully clean before using. Glide the roller over your skin using gentle pressure in downward and outward motions. When using the roller on your face, be sure to apply light pressure, especially under the delicate eye area. This cooling tool is versatile and can treat an array of skin conditions from sun burns and bug bites to puffy eyes and sensitive skin after cosmetic procedures. Use morning and evening daily to firm, lift, and revitalize. Unlike messy ice packs, the roller is sleek and will keep its cool for up to 2 hours. To sanitize the stainless steel roller, apply rubbing alcohol to a cotton ball, and wipe the detachable roller head. Always sanitize thoroughly after using and store the roller in the freezer between uses. Do not heat the Revive.

ADDITIONAL USES

FOR ACNE/BREAKOUTS

Roll directly over the area at the first sign of a breakout to help visibly reduce the size of blemishes. Use the roller before applying topical acne medication to reduce swelling and inflammation, which will improve the skin's ability to absorb the medication and increase the effectiveness.

FOR MUSCLE SORENESS

Roll directly over the troubled area to soothe muscle soreness, tension, or pain following exercise.

FOR PAIN CONTROL

Consult your physician before using the Revive for pain control. The Revive can be used before and after certain cosmetic procedures to numb the area and to minimize discomfort, irritation, swelling, and redness. Roll over the affected area for pain relief from minor injury, burns, or insect bites.

FOR SHAVING/WAXING

Use before waxing to numb the area and after shaving or waxing to calm redness and soothe irritation.
