

NationSearch, LLC (NS) Privacy & Security Policy

Information Registration

- NS collects business and personal information when a new business registers for service.

Information Sharing and Disclosure

- NS does not rent, sell, or share personal information about you with other people or nonaffiliated companies except to provide products or services you've requested, when we have your permission, or under the following circumstances:
- A subpoena, court order, or legal process, or to establish or exercise our legal rights or defend against legal claims;
- We believe it is necessary to share information in order to investigate, prevent, or take action regarding illegal activities, suspected fraud, situations involving potential threats to the to the physical safety of any person, violations of NS's terms of use, or as otherwise required by law.
- We transfer information about you if NS is acquired by or merged with another company. In this event, NS will notify you before information about you is transferred and becomes subject to a different privacy policy.
- We reserve the right to send you certain communications relating to the NS service, such as service announcements, administrative messages and the NS Newsletter, that are considered part of your NS account, without offering you the opportunity to opt-out of receiving them.
- NS does not send information outside of the United States unless it is required and authorized by the customer and applicant as part of an International search or background check.

Confidentiality and Security

- We limit access to personal information about you to employees who we believe reasonably need to come into contact with that information to provide products or services to you or in order to do their jobs.
- We have physical, electronic, and procedural safeguards that comply with federal regulations to protect personal information about you.
- Your NS Account Information is password protected.
- When logged in to the NS application, all information, including your login credentials, are transmitted across a Secure Socket Layer (SSL) with 128-bit encryption.
- The NS Application uses [GeoTrust Inc.](#), a globally-renowned provider, to provide its SSL certificates.
- The NS Application uses the [GeoTrust Inc.](#) QuickSSL Premium services. To receive a copy of the SSL certificate, send a request to info@nationsearch.com.
- NS does store search results data from its providers when a search is processed. That data is encrypted on a server behind a firewall in a secure data center with an accredited provider.
- The data that NS stores does NOT contain any sensitive client data. Using filtering parameters, the log files filter sensitive information provided by the user and returned by our data providers.

Changes to this Privacy Policy

- NS may periodically update this policy. We will notify you about significant changes in the way we treat personal information by sending a notice to the primary email address specified in your NS account or by placing a notice on our site.
