FOR IMMEDIATE RELEASE

Valogix Inventory Planning
Achieves Built for NetSuite Verification

New SuiteApp Meets the NetSuite SuiteCloud Platform's Development Standards and Documented Best Practices

Saratoga Springs, NY January 21, 2014

Valogix LLC, a leading provider of advanced, web-based inventory planning and optimization solutions, announced today that the Valogix Inventory Planning SuiteApp has achieved **Built for NetSuite** verification. The new SuiteApp, built using NetSuite's SuiteCloud Computing Platform, helps to automate the entire planning process including forecasting, replenishment planning and inventory optimization. The Valogix Inventory Planning SuiteApp enables companies to reduce costs, increase productivity and provide a very quick and significant return on investment (ROI). Seamlessly integrated with NetSuite, the SuiteApp automatically provides inventory replenishment orders and transfers directly into NetSuite for processing.

"By achieving the Built for NetSuite status for their SuiteApp, Valogix continues to show a strong commitment to providing quality solutions to our customer base," said Guido Haarmans, Vice President Business Development for Technology Partners at NetSuite.

Built for NetSuite is a program for NetSuite SuiteCloud Developer Network (SDN) partners that provide them with information, resources and a method to verify that their applications and integrations, built using the NetSuite SuiteCloud Computing Platform meet new NetSuite standards and best practices. The Built for NetSuite program gives NetSuite customers additional confidence that SuiteApps have been built to meet these standards.

"We are excited to achieve the important Built for NetSuite status for our Valogix Inventory Planning SuiteApp and look forward to working with our many customers to help enhance their inventory investment and planning," said Tom Glacken, Senior Vice President of Sales and Marketing. "

Valogix solves the most complex inventory challenges with easy-to-use, affordable inventory planning and optimization solutions, which provide users with a rapid return on investment.

Valogix customers often:

- Reduce inventory by 20 to 40 percent or more
- Increase productivity by up to 85 percent
- Reduce stock outs and overstocks, shipping costs and lost sales
- Increase sales by having the stock on hand
- Improve customer satisfaction levels

About SuiteCloud

NetSuite's SuiteCloud is a comprehensive offering of cloud-based products, development tools and services designed to help customers and commercial software developers take advantage of the significant economic benefits of cloud computing. Based on NetSuite, the industry's leading provider of cloud-based financials / ERP software suites, SuiteCloud enables customers to run their core business operations in the cloud, and software developers to target new markets quickly with newly-created mission-critical applications built on top of mature and proven business processes. The complete SuiteCloud offering includes NetSuite's multi-tenant, always-on SaaS infrastructure; the NetSuite Business Suite of applications (Accounting/ERP, CRM and eCommerce); and the NS-BOS Development Platform.

The SuiteCloud Developer Network (SDN) is a comprehensive developer program for Independent Software Vendors (ISVs) who build apps for SuiteCloud. All available SuiteApps are listed on SuiteApp.com, a single-source online marketplace where NetSuite customers can find applications to meet specific business process or industry-specific needs. For more information on SuiteCloud and the SDN program, please visit: http://www.netsuite.com/developers.

About Valogix

Valogix is a member of NetSuite's SuiteCloud Developer Network, a multi-tiered program that enables Independent Software Vendors (ISVs) to quickly go to market with on-demand business applications that leverage the power of NetSuite's core business suite. For more information about the integrated solution, please visit http://www.suiteapp.com.

Note: NetSuite, the NetSuite logo, SuiteBundler, SuiteCloud, Suitelets and SuiteScript are service-marks or trademarks of NetSuite Inc.
