

**FOR IMMEDIATE RELEASE**

## **Announcing Intellect Innovate 2016**

*Annual Training Event and Configurathon to be Held on June 1-3, 2016*

**Los Angeles, CA, March 1, 2016** — [Intellect](#), a leader in Cloud Business Process Management (BPM) software for Smart Enterprise Apps, today announced that [Intellect Innovate 2016](#), the company's annual training event and Configurathon, will take place on June 1-3, 2016 in Los Angeles at the Marina del Rey Marriott Hotel.

"Intellect Innovate 2016 will focus on customer success by bringing together customers, prospects, and partners to learn about building successful Smart Enterprise Apps on Intellect," said [Romeo Elias](#), President and CEO of Intellect. "As an annual training, Intellect Innovate 2016 will host a series of workshops on specific topics designed to generate customer success, and attendees will learn from existing customers about their customer success stories as well as learn about the latest product innovations from Intellect."

During the event, Intellect will hold its annual Configurathon, an exciting event where users compete and showcase their skills by building Smart Enterprise Apps on Intellect's award winning BPM platform. Intellect's Configurathon is similar to a Hackathon, except that it requires no programming or software coding since it leverages the Intellect BPM platform, a business friendly platform that requires no programming for building apps, workflows, and reports.
