# CAST and AI Momentum Partner to Bring unique and innovative Application Portfolio Analysis Solution to the Hong Kong Market

CAST, the leader in <u>Software Intelligence</u>, today announced a partnership with <u>AI Momentum</u>, a leading advisory & technology integrator firm based in Hong Kong. Through the partnership, AI Momentum's subject matter experts will be fully trained on <u>CAST Highlight</u> for the unique and innovative application portfolio analysis solution.

With its newly formed Software Intelligence practice, AI Momentum is now able to provide application portfolio analysis with Highlight in an efficient way for its client ecosystem to enable key executives to get an unprecedented level of understanding, control and drive over their strategic software assets. This will help support their digital or sourcing transformation, portfolio rationalization, cloud migration, post-merger integration and/or to address any of those challenges.

"Together, CAST and AI Momentum are helping organizations in a more structured and proven approach to combat IT risks related to security, performance or security audit, application remediation or modernization services, cloud migration..." said Gordon Sit Co-Founder & Director, AI Momentum.

"Taking strategic software assets into consideration before making IT decisions is of great importance to digital leaders," said Fansi Zhu, SVP & Managing Director at CAST. "CAST Highlight is thrilled to partner with AI Momentum. Combined with AI Momentum's deep business acumen and technical insight, CAST Highlight is going to form a complete and packaged offering that helps digital leaders reduce risks and costs while driving digital innovation, all in the name of faster ROI for our customers."
