# FAS Asset Inventory

Efficiently create and track multiple physical inventories of assets and enjoy complete control over your entire asset inventory at every step with FAS Asset Inventory. This solution allows you to thoroughly track your fixed asset inventory, eliminating lost or stolen assets and reducing insurance and tax overpayments. The flexibility of FAS Asset Inventory allows it to support both "Baseline" inventories for creating an initial list of assets, and "Dynamic" inventories for verification of existing assets.

With an easy-to-use wizard that walks you through every step of reconciling your inventory, FAS Asset Inventory makes automating your fixed asset inventory tracking simple. FAS Asset Inventory allows you to efficiently perform physical inventories using state-of-the-art Windows® Mobile bar code readers. You can conduct multiple inventories concurrently at various sites and reconcile data at one central location. And, since FAS Asset Inventory comes with over 40 fully customizable fields, you can control data entry with notes and images to describe each asset record. Better still, FAS Asset Inventory integrates seamlessly with FAS Asset Accounting, allowing physical inventory data to be easily reconciled with existing asset data.

From developing innovative products to providing certified customer support, Sage Software is dedicated to surpassing expectations in all aspects of your business. For more information about FAS Asset Inventory, please call us toll free at 800-368-2405, or visit our Web site at www.sagefas.com. Sage customer service representatives are standing by to provide you with top-notch products and service.

## BENEFITS

### COMPREHENSIVE TRACKING
Check-In/Check-Out feature with activity history enables monitoring of mobile assets, and available user fields allow for data entry to be standardized. Store photos, documents, and information for each asset including class, acquisition date, GL asset account, location, and much more, eliminating duplication in asset tracking and facilitating clean audits.

### FLEXIBLE CONFIGURATIONS
With the wealth of features offered including configurable data fields, and "Asset Templates" that promote data integrity and accelerate the process of entering new assets, you can customize your Sage FAS Gov fixed assets solution to work the way you want to.

### STREAMLINED INVENTORY
Asset labels and bar code readers complete the inventory solution; durable, pre-printed bar code labels made of polyester, foil or aluminum and Windows Mobile bar code readers make tracking assets quick, easy, and accurate.
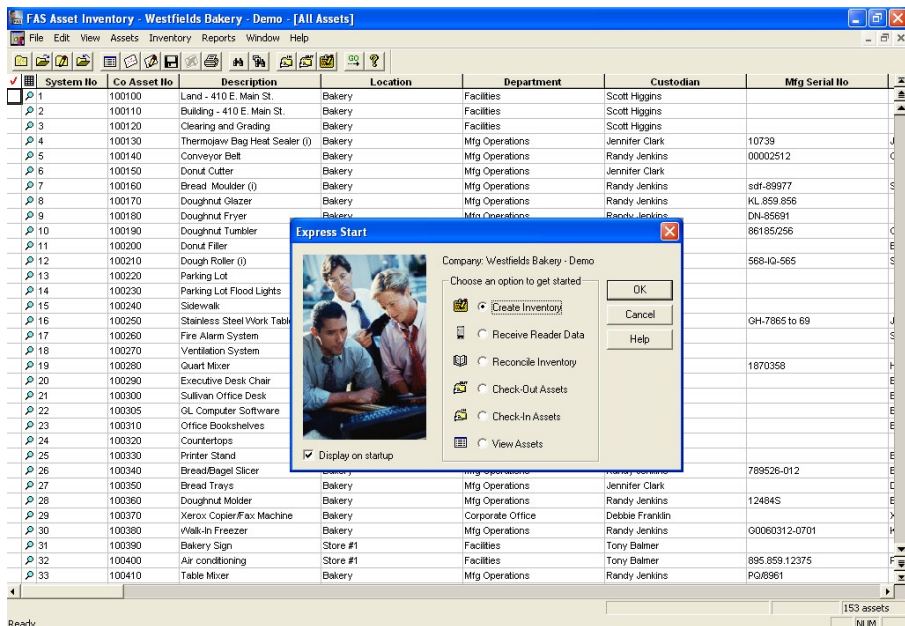

### SECURE ACCESS
Security profiles can be defined differently for each individual user that has access to the system, ensuring that only those individuals allowed to change the data are able to.

### CERTIFIED SUPPORT
Sage FAS SupportPlus members benefit from an unmatched level of customer support–visit our online knowledgebase, or call the Sage FAS Customer Support Team and our friendly, knowlegeable experts are ready to help. SupportPlus members can also receive software updates, access multimedia tutorials and take advantage of exclusive discounts on new products.

*FAS Asset Inventory combines solid fixed asset inventory capabilities with an easy-to-use interface and readily integrates with the complete line of Sage FAS solutions.*

## Powerful Reports

The FAS Asset Inventory family provides the necessary reports for you to track your assets and obtain crucial information about individual assets or groups of assets. You can quickly and accurately report on:

- Fixed asset listing
- Asset detail
- Collected data from bar code readers
- Checked out assets
- Overdue assets
- Transferred assets
- Inventory exceptions found
- Fixed asset history
- Duplicate asset tag notification
- And more

FAS Asset Inventory is designed to meet the number of assets of your organization:

### FAS 100 Asset Inventory

- Stand-alone or multiple network user seats
- Designed for entities with fewer assets

### FAS 500 Asset Inventory

- Faster processing times with Microsoft SQL infrastructures
- Designed with client/server architecture and support for multiple databases
- Easily accounts for hundreds of thousands of fixed assets
