EXPORTECH™

An Export Acceleration System for Achieving Profitable Growth

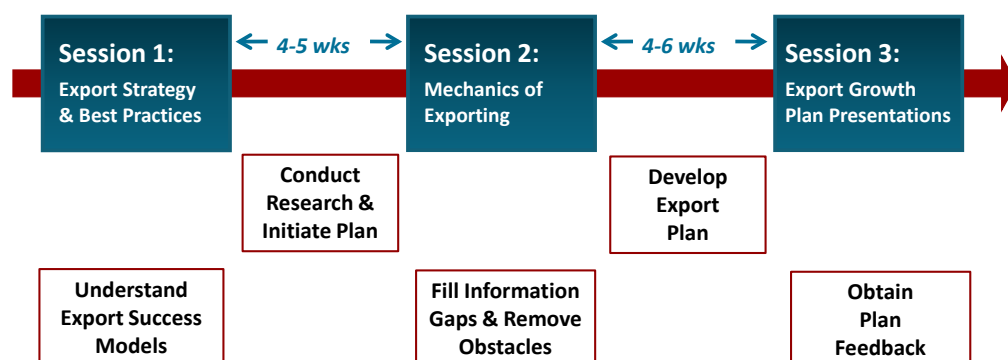

HOW DOES EXPORTECH™ WORK?

1. The process assists companies to develop a **simple, actionable international growth plan** based on a series of designed tools and templates.
2. Connects participants with a range of reputable international business experts who help them develop and execute their international growth plans, thus realizing enormous efficiencies as they navigate the export process.
3. Integrates a unique combination of **group work, individual work, and personal coaching**.
 - During group sessions, business experts are selected based on the specific needs of the companies to educate the group and provide one-on-one consultations.
 - Planning exercises and discussions help companies develop their customized plans, and learn from their peers.
 - In the final group session, **each company's plan is reviewed and vetted by a panel of experienced international businesspeople** which can help avoid costly mistakes and see new opportunities.
 - Each company is assigned an experienced coach to provide focused, one-on-one support in the development and execution of their plans.

WHAT IS REQUIRED?

Companies participate in three one-day group sessions scheduled over a three-month period. In between, each company works on the development and implementation of their international growth plan, with the support of a coach.
