KPI PARTNERS SERVICES

THE KPI ADVANTAGE

KPI Partners is 100% focused on Oracle Business Intelligence.

KPI Partners leverages years of experience in analytics deployment methodologies and framework to deliver measurable results that enhance business performance and help solve critical information challenges.

Armed with analytics knowledge from a wide variety of industries, KPI Partners provides technical solutions that are reliable, flexible, scalable, and affordable.

The company founders have deep roots in packaged BI Applications at Oracle and were instrumental in driving the architecture of the packaged BI applications that Oracle sells today.

ORACLE®

Brio to Oracle BI Report Migration

- The KPI Partners' One Week Report Migration is a <u>FIXED PRICE & SCOPE</u> engagement to convert select reporting objects and a minimum of five reports to the Oracle Business Intelligence Platform.

- One KPI Consultant will be on-site converting your Brio metadata and reports using Oracle's utilities and KPI's Migration Best Practices.

- KPI will help introduce our report migration methodology and categorize easy vs. complex reports for metadata and report migration.

- This migration program lays the foundation for Oracle Business Intelligence, providing the ability to quickly migrate and extend the rest of your Brio Business Content.

The KPI Report Migration Methodology

This Brio BI report migration program utilizes KPI Partners' proven migration methodology and is based on extensive experience with numerous conversions from various legacy BI tools to the Oracle BI Platform.

The full migration methodology includes these elements:

Audit
- Determine which reports are most and least used and which are easy or complex

Evaluate & Consolidate
- Consolidates existing reports and applications
- Teach and use capabilities of OBIEE
- Rethink how Business Intelligence is delivered

Implement
- Treat migration as any IT project with a project plan, steering committee and other elements

KPI Partners' One Week Report Migration is an introduction to our methodology and gives you a preview of our Best Practice Framework for leveraging your existing assets while being introduced to the Oracle BI Platform.

About KPI Partners

KPI Partners is the largest and most experienced consulting firm focused on Oracle Business Intelligence Enterprise Edition Plus (OBIEE +) and Oracle Analytical Applications.

Our talented and experienced staff comes from product management, engineering, expert services, and the competency center of analytics division at Siebel, Hyperion and Oracle.

Our founders were early pioneers in many packaged BI Applications companies, including Siebel, Informatica, Epiphany, PeopleSoft and Cognos, and were intimately involved in driving the architecture of the packaged analytical applications that Oracle sells today.

KPI Partners operates in North America and in India. The company strongly adheres to the beliefs "Business Intelligence Beyond Reporting" and "Buy and Extend" and is considered a thought leader in packaged BI application strategy and operational BI.
