

## Pursue the right objective and realize rapid success

### THE EXPERIENCE

It's a jungle in here...to prepare you for the jungle out there! Jungle Fire is a multimedia-driven experience that transports you to a treasure hunt in the Amazon. Your quest is a hoard of diamonds that lies on the far side of a dense rainforest, and a monsoon is imminent! There's much to be done, you have only 24 hours and other teams are also in the hunt. But with concerted focus on the right objective, a solid plan, astute risk management and smart allocation of resources and skills, you can achieve your goal. Ultimately, there are no losers in Jungle Fire. No matter how your team places, it will be better equipped to plan, communicate and perform together to deliver tangible, business results in the jungle that is your competitive landscape.

### BUSINESS IMPACT

Participants will learn to:

- Recognize that time taken in planning is time saved in execution
- Make informed decisions about which objective will produce the best quality results
- Identify and utilize all relevant information
- Appreciate the variety of strengths that exists in your team and transform that into increased productivity
- Take considered, appropriate risks from a position of strength, not desperation
