

## Silence becomes synergy when everyone works in harmony

### THE EXPERIENCE

Dog Chicken Dog will have everyone on their feet, blending sounds and rhythms together. It's ideal as a conference ice-breaker or re-energizing activity, and it's multimedia driven—no facilitator required! You will play the role of budding musician, equipped with a simple instrument (ordinary household objects) that you'll rapidly learn to play. As you become more comfortable and skilled with your particular 'instruments,' you'll soon realize how your enthusiastic participation is crucial to the whole orchestra's performance—there are no soloists! Ultimately, as you collectively master more complex arrangements, you'll see, hear and feel the potential for what can be achieved when many different talents collaborate, in perfect harmony, for a common purpose—and it will be music to your ears!

### BUSINESS IMPACT

Participants will learn to:

- Appreciate the value of each person's contribution and their potential to contribute more to the whole
- See the power of group synergy – when team/company performance can exceed the sum of individual effort
- Be accountable for what you can achieve as part of a larger vision
- Break down the 'sound' barriers between individuals and increase team cohesion, morale, and productivity

**30 MINUTE PROGRAM – NO FACILITATOR REQUIRED**

**GROUPS OF 40 TO 5000 PARTICIPANTS**

**IDEAL FOR USE IN CONFERENCES**
