FINANCIAL CRISIS

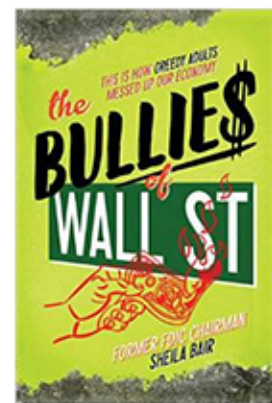

ENDING TOO BIG TO FAIL

THE HONORABLE SHEILA BAIR is the President of Washington College, a historic liberal arts school located on Maryland's scenic Eastern Shore. Washington College was founded in 1782 as the first college chartered in the new nation. George Washington helped found it with a donation of 50 guineas and served on its governing board for five years before becoming the first president of the United States. The College is known for the high quality, intimate educational experience it provides undergraduates, and for its nationally recognized centers focused on the environment, American history, and literature.

Ms. Bair is perhaps best known for her service as the 19th Chairman of the Federal Deposit Insurance Corporation for a five-year term. With the collapse and upheaval of U.S. and global markets as well as venerable financial institutions, Chairman Bair worked diligently both in front of and behind the scenes to bolster public confidence and financial system stability. Her extraordinary efforts and relentless dedication established her as an ardent advocate and innovator of policies to end the doctrine of too-big-to-fail and taxpayer bailouts.

Chairman Bair is one of our leading speakers on business, economy and finance, and leadership - and we hope you will consider her for your next event. From corporations to universities to leading associations, the Worldwide Speakers Group has hundreds of speakers for any price range, audience, venue or type of location. We simplify the process for selecting your speaker to help create the experience of a lifetime.

“
A fearless advocate
for the 'little guy'
”
