

ClaimCareSM

The Medical Billing Professionals

- Profit
- Compliance
- Peace of Mind

**"It does not work to leap a twenty-foot chasm
in two ten-foot jumps."**

American Proverb

Medical billing has undergone monumental changes over the past decade and is undergoing still more. However, as the complexity of payers' technology and reimbursement rules have grown and physician revenues have fallen, most providers still use the same processes and technologies they were using a decade ago. This chasm between where physician billing is today and where it needs to be is ever growing.

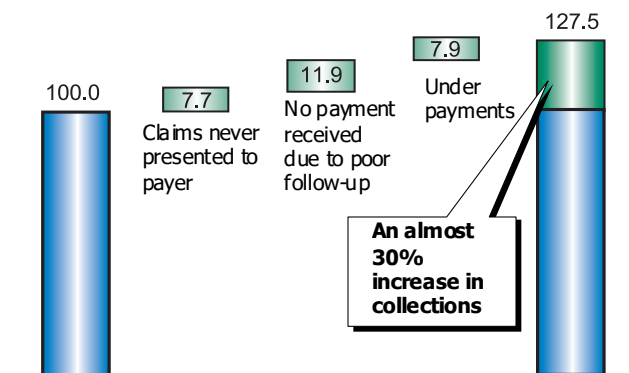

ClaimCare is the single leap you need to overcome this medical billing chasm and begin receiving faster payments and increased revenues. We are grounded in the fundamentals of medical billing with over 13 years of operating experience in more than 15 states. We have combined this expertise with over \$600,000 in state-of-the-art technology that matches the tools used by insurance companies to deny and delay your claims. On top of this, we use a well defined and disciplined billing process that allows us to reach excellence in every phase of billing operations and insure that our clients are not losing money they should be collecting.

Our clients can choose to use all of our modules or just the basic service. We can use our highly trained staff or work with your own billing experts. We have the flexibility to find a solution that works best for you and your office's unique requirements.

What ClaimCare can do for you:

- Provide HIPAA and OIG compliance.
- Improve your revenues by 10 to 40 percent
- Reduce days in A/R by up to 50 percent
- Provide *meaningful* financial reporting that supports contract negotiations, productivity tracking and pricing
- Eliminate any need to make up front expenditures in billing hardware and software
- Eliminate your on-going billing related software and hardware costs
- Prevent you from being overly dependent on a single employee or small office staff

Call ClaimCare. We can perform an A/R and compliance audit that will show you where you could be losing money, how we can help your practice and where your most significant compliance risks lie. The chart below is a sample of what we discovered in working with one multi-doctor specialist practice that was leaving almost 30 percent of its potential revenue uncollected.

ClaimCare's Service Offering:

We provide full service medical billing:

- Create and submit all claims electronically whenever possible
- Follow-up on denied and down-coded claims
- Mail statements and follow-up on patient balances
- Manage patient inquiries and interactions
- Post payments/ monitor reimbursement

- Create targeted, customized reports using our powerful relational databases. Questions like "From which payers did we receive the most reimbursement and how fast?" can be answered quickly and easily
- Provide advice on strategies to increase your collections and compliance including front-office work flow, superbills, etc
- Store all relevant billing related material for at least 7 years.

We can also provide you with:

- A state-of-the-art scheduler for your office, along with hardware you may require to support the scheduler
- On-line, real-time access to your billing information and reporting
- Scanning system to convert your billing records into electronic form
- An 800 number for your patients and staff to call us with any billing questions.

The ClaimCare Difference

- Service Level Agreement (SLA): We guarantee our services in writing
- Quick implementation
- Scrub and fix claims before they are submitted to payers
- Continuous update of scrubbing rules engine to maximize payments on the first submission
- Follow up on claims 15 days after submission to catch early denials and "lost" claims
- Auto-compare your reimbursement with expected payments to identify and rectify underpayments and down coding
- Analyze and trend payments to provide you with the information and tools you need for contract negotiations, pricing, and managing your practice.
