CLARK COUNTY SCHOOL DISTRICT

Size: 250,000 Square Feet

Location: Las Vegas, Nevada

Challenge *Aging Hypalon® Roofs*

- Checking, polymer loss, scrim exposure from sun attack.
- Localized membrane damage near penetrations.

Solution *AcryShield® Restoration System*

- Customized reinforcing at penetrations & repair areas.
- Renewed UV protection to stop polymer & membrane deterioration.

Clark County is embarked on an extensive restoration program to save acres of Hypalon roofs across tens of buildings.
